

جامعة أبوظبي
ABU DHABI UNIVERSITY

COLLEGE OF ARTS AND SCIENCES

BACHELOR OF SCIENCE IN PUBLIC HEALTH

The UAE has vast public health challenges. This degree will provide teaching and learning situations that will build up student's knowledge of human public health issues and practices that are relevant to the UAE. The program will provide a career-focused training that fits the needs of the UAE and community development. Public health focuses on large-scale health issues, determinants, and solutions. Graduates will deal with complex health issues, such as controlling communicable diseases and improving health care policies. Students can specialize in a range of fields including health policy management, environmental health and health promotion. The B.Sc. in Public Health is designed for students who thrive on making a positive impact on the lives of others. This program is ideal for students with an interest in the connection between the local community and general health issues.

Career Prospects

Public health job opportunities are offered by but not limited to the health authorities, hospitals, insurance companies and public health research centers. Most career opportunities for Public Health graduates are found in the following fields:

- Health Services Administration
- Biostatistics/Epidemiology
- Health Education/Behavioral Science
- Environmental Health
- Nutrition
- Public Health Practice/Program Management

Graduates of the Program will acquire the following knowledge and skills:

- Define the core areas of public health (Epidemiology, Environmental Health, Biostatistics, Health Service Administration/Health Policy Management and Social & Behavioral Science)
- Analyze health-related issues that are common in the community of the UAE and global public health
- Define public health problems and public health assets across the ecological model and understand ethical practice and research
- Define and explain the public health functions of promotion, protection and assurance and their role in protecting the health of the public
- Explain recommended solutions for defined problems using knowledge of the broad and interconnecting causes of the UAE's health problems
- Effectively communicate (orally and in writing) health-related issues and activities to professional and lay audience and explain the cultural sensitivity in public health practices

Students' Testimonial

Asma Parvez

"I was attracted to enroll in the Public Health program at Abu Dhabi University since it is one of its kind to be offered as a Bachelor of Science in the UAE. Throughout the course of my degree, I have gained an immense amount of knowledge, both theoretical and practical from professors who are experts in their field. The curriculum of Public Health is very exciting; I have learned so much about the different aspects of public health and I'm confident that it will help me further enrich my career goals and aspirations"

Curriculum

COURSE CODE	COURSE TITLE	COURSE CODE	COURSE TITLE
University Requirements: 36 Credit Hours
